Data in this database are refreshed every 1st on the 15th day of every month with the data from the production environment.

Nová funkcionalita:
V případě udělení hodnocení B se předsedovi oborové rady pod jeho roli objeví možnost zaevidovat snížení pravidelného doktorandského stipendia (dle čl.12 odst.5 Stipendijního řádu UK, výsledná výše stipendia v procentech ani odůvodnění je nepovinné), včetně odůvodnění. Návrhy změny stipendia se budou zobrazovat v samostatné sekce v hodnocení, a to pouze školitelé, oborové radě.

Připomínám, že pro nové programy je nutné doplnit oborové povinnosti. Ty musí být vyplněné než se student založí ISP. Pokud je tedy máte pošlete mi je na email sis@fsv.cuni.cz.

Duties specific for the field of study

Publications and other study obligations required for admission to the state doctoral examination:
By the end of the 3rd year I enroll for the state doctoral exam (SDE) so that I pass the SDE not later than by the end of the 4th year. Not later than two months before the SDE I deliver all materials demonstrating compliance with the conditions for admission to the SDE. These conditions are:
- Having published or accepted for publication one scientific article (in that case I attach the postprint or a well verifiable confirmation of acceptance for publication) in a scientific journal included in the Scopus database (or in a journal with a nonzero impact factor from SSCI, SCI databases) and at least one scientific article in a series of at least IES Working Papers Series quality (in that case I submit a request to the chairman of the Doctoral Council for consideration). An alternative condition for publication duty is one research article published or accepted for publication in a scientific journal with a score of at least "B" according to the internal methodology of measuring the quality of scientific journals at IES FSV UK (see Director's Measure 1/2016 "Research" and the document Journal Evaluation at IES FSV UK). Only articles accepted for publication when the student studies the PhD at the IES will fulfil this condition. All articles must be affiliated to IES FSV UK. Only articles in Economics, Finance and closely related fields will be accepted.
- Fulfillment of the special requirements of the Doctoral Council (if there are any).
Publication and study obligations required for admission to the defense:
At the time of submission of my application to the pre-defense and defense I commit myself to have:
- Passed the state doctoral examination.
- One research article published or accepted for publication in a scientific journal with a score of at least "B" according to the internal methodology for measuring the quality of scientific journals at IES FSV UK (see Director's Measure 1/2016 "Research" and Journal Evaluation at IES FSV UK). Alternatively, at least two articles published or accepted for publication in scientific journals included in the Scopus database or in scientific journals with non-zero impact factor from the SSCI and SCI databases. These articles do not have to be part of the dissertation thesis. Only articles accepted for publication when the student studies the PhD at the IES will fulfil this condition. All articles must be affiliated to IES FSV UK. Only articles in Economics, Finance and closely related fields will be accepted.
At the time of submission of my application to the pre-defense, I commit myself to have the dissertation thesis at least in the following form:
- At least one dissertation article is fully finished (the supervisor approved the final version as a dissertation chapter), the second article is almost finished (the student processed the last supervisor's comments and awaits its approval) and the third article is elaborated. The elaborated article has at least a clear structure, methodology, goal of the research and a significant work has already been done.
BT and MT opponency:
Throughout the entire duration of my study I will serve as an opponent of Bachelor's and Master's theses.
Study documents:
Till May 31 of each academic year, I deliver my "Annual assessment of fulfilling the ISP" + "Supplement", in which I further specify the intended course of my doctoral studies in the next academic year. In case of terminating my study interruption I will fill in the required documents ("Annual assessment of fulfilling the ISP" + "Supplement" for the next academic year) within a month from the end of my study interruption period.
